COUNCIL DISMISS GRAHAM FAMILY RUMOUR

THE Glenrothes family at the centre of an eviction row will NOT be housed in Kirkintilloch.

Rumours were rife in the town last week that the Graham family - dubbed 'the neighbours from hell' - were to be given a house in the Hillhead area of the town.

But the claims were strongly denied this week by Strathkelvin District Council Chief Executive Cion Mallon and Housing Convener Michael Donohoe.

Chief Executive Cion Mallon said: "This rumour is absolutely without foundation. I don't know how such a story could start.

PROBLEMS

"The district has serious housing problems as it is and we do not have the capacity to house every of our own people."

Strathkelvin's Housing Convener Michael Donohoe admitted he had also heard the rumours.

But he said: "I have no knowledge whatsoever of this family coming to Strathkelvin."

He added: "I don't think for one minute that the people of Strathkelvin would support me as housing convener should the housing department allocate this family a house in the district."

Glenrothes Development Corporation were given the go-ahead to carry out an eviction, when a hearing found the Grahams had indulged in persistent and serious anti-social behaviour.

budget plastic sexy wear

plastic and rubber clothes are really nice to wear but they are usually extremely expensive. Violet magazine has been researching this problem + has come up with some cheap + BETTER alternatives. If you are prepared to spend some time + energy in charity shops and at a sewing machine then you too can be a trendy S+M vixen!

Plastic high heel shoe covers - "rain mates" I think for ladies who like puddles but who want to keep their suede court shoes nice. clear plastic w/ zips, holes for the heels and pointy soles. Good for shoe fetishists' wives who don't want urine/cum stains.

Galoshes - more rain wear, clear plastic/rubber + creepy with white buttons + rubber loops - look good with high heels inside.

Take good suction noise when you walk + very very sweaty

Rubber veruca socks - from most swimming baths. Get a large pair as if too tight, tend to cut off circulation and your legs bulge out the top. I would like a knee high pair but I don't think they make them unfortunately.

Rubber socks from baths :- £3 rubber stockings from condomania :- £70

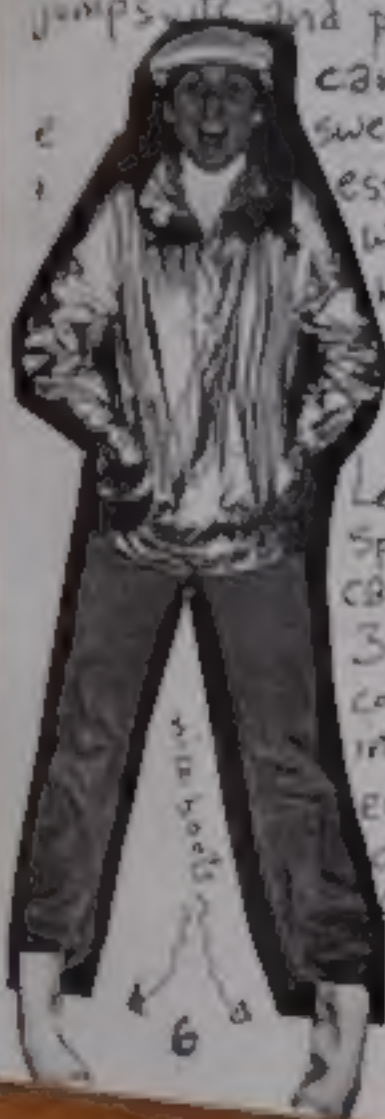

I don't know where you can go to buy rolls of plastic but plastic Macs are cheap in charity shops (but don't pay more than £2 or it's a rip off) and can be cut up to make clothes. The clear, coloured ones are quite hard to sew as they rip at the seams but the cheap used for shower caps + tents as well as Macs are very easy to manipulate.

Budget Fetish

The hoods of macs can be turned into
wrestling/rapist masks. Especially good
for females as most leather masks are
too big (most buyers are men?)

Patterns for clothes can be used
with plastic just as easily as with
material - extremely sexy items
being chinoise style dresses, cowboy
shirts, nurse outfits, gary human
jumpsuits and pedal pushers. They

can be really really
sweaty but this is an
essential part of the
whole pleasure in
wearing plastic -
linings can be sewn
in but are for wooses.

Let the trendy pricks
spend £100s on rubber
catsuits to dance for
3 hours in clubs that
cost them £15 to get
into - as with just about
everything, the home made
cheapo versions of
fashion are far sexier,
creepier + satisfying to
step out in. ♥

It is still, genuinely, obvious to me when I see the single edge in the conversation which means they are doing it. But it is inevitable that a small number of people will be so-called in an extremely hot and unbalanced way, which is a good reason they are still not considered.

deal 90's L.A. girl gang mothers such as they ones in the PLAYBOYS and KIDN PARK. They are very, very mean and have manicured nails, acid lenses and tattoos at the corners of their eyes. Plus they are really fucking hard.

The ROMETTES and SHIVETTES - excitable 60's girl groups and god mothers of gang mentality. Unlike the Supremes, these girls weren't glitzy and Las Vegas they were working class and fresh off the streets. The stuff they sang about was their lives and I reckon they were also quite vicious. The Romettes especially influence a gang girls' application of EYELINER: i.e. as much as possible and as elaborate as possible. Think ohinky, think Tura Satana, think 4" eyelashes and basically VIGGS in the corners of your eyes.

THE ROMETTES. Maybe the biggest influence is from a pretty minor source (but extremely important) - LOVE AND SOCIETY comic book published by Fantagraphics. It features a character called Lissy who in her crazy youth was a member of the WIDOWS GANG. There's just the one picture of her w/ teased hair but she looks amazing.

To achieve this look it is very easy, it must be pointed out though that it doesn't look as good on skinny pale types, long legs, chunky arms and tits, long noble necked girls with swarthy complexions will look good. You need long black straight hair teased into as high a bouffant as can be achieved with spray and socks stuffed in it, Plucked to nothing and pencilled in eyebrows, no lipstick and olive Puerto Rican skin. Cap sleeve t-shirt to show off tattoos and circle-stitchh/ padded bra. Also pencil skirt or peddler-pushers, pointy shoes and a flick knife for show.

I'm going to try and get a suitable mexican pen-pal so look out for tips in future issues on cat fighting - e.g. is it worth going for getting her tits out near the start - humiliating for your opponent yes, but does put the crowd on her side. What to do?

4. The main idea is to find the value of λ such that the matrix $A - \lambda I$ is singular. This is done by setting the determinant of $A - \lambda I$ equal to zero and solving for λ . The characteristic polynomial is then found, and its roots are the eigenvalues. For each eigenvalue, the corresponding eigenvectors are found by solving the system $(A - \lambda I)\mathbf{v} = \mathbf{0}$.

В заключение хотелось бы отметить, что в настоящее время в России не существует единого законодательства, регулирующего деятельность по защите прав потребителей. В настоящее время в России действует несколько законов, регулирующих отдельные аспекты защиты прав потребителей, такие как Закон о защите прав потребителей, Закон о техническом регулировании, Закон о рекламе и др. Однако эти законы не образуют единой системы, что приводит к противоречиям и пробелам в законодательстве.
